PROFESSIONAL EXPERIENCE

Senior IT Business Analyst | Melaleuca, Inc. | Idaho Falls, ID | Apr 2020 - Jan 2026

- Performed business analysis and product-management responsibilities across enterprise digital initiatives, translating stakeholder and user needs into requirements, user stories, workflows, roadmaps, and UAT plans.

- Partnered with software architects and engineers, product teams, digital designers, content authors, and business stakeholders to deliver system and website enhancements in an Agile environment.
- Created and maintained a 300+ component knowledge base used by developers, digital designers, and content authors, combining technical documentation, and reusable component training.
- Designed a cross-functional component review process to evaluate new and existing website capabilities and improve consistency, reuse, and decision-making.
- Created an RFP and vendor scorecards for an enterprise translation-management solution and synthesized findings into recommendations.

EARLIER EXPERIENCE

Sitecore Content Developer | Cochlear, Ltd. | Centennial, CO | Nov 2019 - Apr 2020

Supported an enterprise website migration through page buildout and content development.

Front-End Web Developer/ Content Manager | AORN | Denver, CO | Jan 2015 - Nov 2019

Developed and managed enterprise web content. Built responsive experiences with HTML/CSS and JavaScript. Created governance standards and author documentation. Led web strategy work and coordinated releases across marketing and development teams.

Front-End Web Developer | First Data | Greenwood Village, CO | Sep 2014 - Dec 2015

Supported international website buildout, localization, translation, Adobe CMS administration, and front-end development.

Director, Web Marketing | Regis University | Denver, CO | Aug 2010 - Sep 2014

Led migration of a 7,000-page university website to an enterprise CMS. Established cross-departmental training, governance, information architecture, and content strategy.
